PROFILE SUMMARY

Data Analytics and Information Content Management student (CGPA 3.62) with hands-on experience in business intelligence, database management, and operational IT support. Skilled in Tableau, Power BI, SQL, and data auditing with a proven track record of managing enterprise assets and optimizing datasets. Seeking a Data Analytics or Operations Internship to drive data informed decision-making.

EDUCATION

Bachelor of Information Science (Hons)

Expected Graduation Feb 2027

Information Content Management

Universiti Teknologi MARA (UiTM) / CGPA: 3.62

Diploma in Information Management

Oct 2022 - Feb 2025

Universiti Teknologi MARA (UiTM) / CGPA: 3.53

MUET : BAND 4.0

EXPERIENCE

JABATAN KASTAM DIRAJA MALAYSIA (JKDM)

JULY - SEPT 2024

IT & TECHNICAL ASSISTANT (INDUSTRIAL TRAINING)

- **Audited, registered, and cataloged** 60 electronic hardware acquisitions into the central database, achieving 100% inventory accuracy.
- **Resolved 30+ weekly helpdesk support tickets** covering hardware, software, and system updates, achieving a fast turnaround rate for department personnel.
- **Diagnosed and repaired PC and laptop hardware faults**, replacing faulty components to minimize operational system downtime across departments.
- **Evaluated IT operations and risk protocols** in collaboration with senior engineers, focusing on project timelines, preventative maintenance schedules, and data center backup power.

CERTIFICATIONS

- **Introduction to Data Science - Simplilearn (July 2026)**
- **Power BI for Beginners - Simplilearn (July 2026)**
- **Power BI Data Modelling Basics - Simplilearn (July 2026)**

SKILLS

- **Data & Analytics:** Power BI, Tableau, SQL, Data Visualization
- **Database Management:** MySQL, PhpMyAdmin, XAMPP, DBMS, Data Entry
- **Design & Development:** Figma (UX/UI), WordPress, Wix, FlutterFlow, HTML, CSS, JavaScript, C++

PROJECT EXPERIENCE

UI/UX & Front-End Web Developer | Hanguk Flavours Website

- Designed and built a 6-page responsive culinary web app (menu, ordering flow, testimonials) using HTML5, CSS3, and JavaScript, translating a Figma UI/UX plan into a live, mobile-first interface.
- Applied visual hierarchy and reusable CSS components to keep the layout consistent and fast-loading across all pages and devices.

Mobile Application Developer | FlutterFlow App Project

- Built a multi-screen, cross-platform mobile app in FlutterFlow for renting, designing intuitive user flows to minimize steps for key in-app actions.
- Used low-code prototyping to move from wireframe to functional build quickly, enabling rapid iteration on UI and user feedback.

Data Analytics Project | American Superstore Performance & Logistics Suite

- Developed a 5-dashboard interactive Tableau storyboard utilizing 31 worksheets to analyze 4 years of retail operations, product profitability, and regional sales trends.
- Built dynamic maps and Top-N filters to evaluate supply chain health and pinpoint key customer segment growth drivers.
